

Commercial Casualty II

Aug. 6, 2024 - Online

CLASS OVERVIEW & TOPICS

This course, like Commercial Casualty I, strengthens your ability to have productive, assured interactions with your commercial customers in the area of commercial casualty exposures and coverages. In this course the focus is the business auto policy, the workers' compensation policy and excess liability policies. You will improve your understanding in each of these areas.

Agenda

7:45 - 8:00 a.m. Join webinar

8:00 - 10:00 a.m. Workers' compensation and employer's liability
Important legal concepts that establish the workers' compensation system and the fundamentals of compensation for injured employees, including the types of benefits.

10:00 a.m. - 12:00 p.m. Intro to business auto coverage
Major coverages and exposures related to the Business Auto Policy along with an examination of exclusions, gaps in coverage, and endorsements used to modify coverage.

12:00 - 12:45 p.m. Lunch

12:45 - 2:00 p.m. Business auto coverage (cont'd)

2:00 - 3:45 p.m. Commercial umbrella/excess liability
How excess liability coverage works, including the conditions important to protect insureds, importance of approaches in designing excess coverage, and critical policy conditions.

3:45 - 4:15 p.m. Q&A exam briefing
